

bulka

Bulba likes strawberries and diuretic strawberry seeds. If she could hold long enough maybe she could turn her navel into a urine fountain...?

"Bulba" was originally developed as a comic book. It is a funny story of a girl looking for a better life. A better one for herself and a better one for... her navel. The author of the film is twenty years old, she lives in Poland and with help of a small group of friends makes short animated movies. Mixed animation techniques, surreal sense of humour and mocking at world created by media - you can find it all in "Bulba".
